

Secretary: Nicole Labrecque

Resume: attached

Statement: I am reaching out to express interest in the Secretary of the Chapter position for the SNMMI New England Chapter. I am a recent graduate from MCPHS University and a new nuclear medicine technologist at Newton-Wellesley Hospital. Prior to my time at MCPHS University in the NMT program, I attended Quinnipiac University and served on the Panhellenic Executive Board as the Vice President of Greek Unity. During my term in the position I handled community outreach and programing. In January of 2020 I attended the SNMMI Leadership Academy during the mid-winter meeting. My experience at the Leadership Academy showed how similar working with the SNMMI is to my experiences with my past executive board. I realized that becoming involved with the SNMMI, especially within my local New England chapter, combines what I enjoyed in the past during my undergraduate time with my career in nuclear medicine. I enjoy challenging myself and learning new skills. I am organized and attentive to detail. From my past experiences I have learned that I enjoy being part of a team that shares a common goal. I believe I would be a great fit for the role of Secretary of the Chapter.

Sincerely,

Nicole LaBrecque
