

NCD: Kathy Krisak

Statement: The NCD position is one that represents our needs to the national council of the SNMMI. As a working technologist I know the needs of our technologists. When I sit on this council you will be there with me. There are issues that arise that may not represent our best interest, I will oppose and do what is best for you and our chapter. Having been a member of this chapter since I have started my career, I feel that every one of you are part of my family. It is with this relationship I ask for you for your support.

Thank you and be safe,
Kathy
